Cowan, Ian M.

Distribution and variation in deer (genus *Odocoileus*) of the Pacific Coastal region of North America. Calif. Fish & Game 22(3):155-246. July 1936.

Columbian black-tailed deer p.215-224.

Dasmann, Raymond F., and Taber, Richard D.

Behavior of Columbian black-tailed deer with reference to population ecology. J. Mammalogy 37(2):143-164. May 1956.

"Literature cited":163-164.

Dealy, John Edward.

The influences of logging practices on Columbian black-tailed deer (*Odocoileus hemionus Columbianus* Richardson) in the Blue River area of Oregon. M.S. thesis, Oregon State College, 1959.

Einarsen, A.S.

Management of black-tailed deer. J. Wildlife Mgt. 10:54-59. 1946b.

Washington State Univ. 1961.

The present and future of coastal forest management, 1961. 22 p.  
 "Coastal forest... Japan with limited attention to open the forest  
 canopy and allow growth and better access to light. Successful also  
 considered."

# White-Tailed Wood

Brown, Elizabeth Wheeler.

The black-tailed deer of western Washington. Wash. State Dept., Biol.  
 Ser. 12. 1961. 120 p.  
 "Literature cited" 120-124.

Browning, Bruce H., and Linsley, Earl W.

A deer study in a redwood- Douglas fir forest type. Calif. Fish & Game 32  
 (3):112-114. July 1964.

A study made during 1959-60 of the relationship between white-tailed  
 deer and the vegetation of the principal timber-producing types in the  
 coastal region of California. Includes information on deer habitat,  
 reproduction, age, condition, disease and behavior of the deer.

Chapman, E. V.

Food preferences of the California black-tailed deer, white-tailed deer,  
 reindeer (caribou), on the Tijuana area, Oregon. U.S. Forest  
 Service, Forest Service, 1961.

Cowan, I. W.

The ecological relationships of the deer of the California black-tailed  
 deer, Odocoileus hemionus columbianus (Gmelin), in the coastal  
 region of western Vancouver Island, British Columbia. Biol. Monog. 11(1):  
 100-114. Apr. 1965.

Cowan, I. W.

Reproduction and population in deer (Odocoileus) in the Pacific  
 coastal region of North America. Calif. Fish & Game 32(3):125-126. July  
 1964.  
 Odocoileus black-tailed deer p. 125-126.

Cowan, I. W., and Brown, Elizabeth W.

Behavior of California black-tailed deer with reference to population  
 ecology. J. Mammalogy 55(1):145-160. May 1974.  
 "Literature cited" 145-160.

Cowdy, John Edward.

The influence of logging practices on California black-tailed deer  
 (Odocoileus hemionus columbianus Gmelin) in the Five River area of  
 Oregon. M.S. Thesis, Oregon State College, 1959.

Hammer, A. B.

Management of black-tailed deer. J. Wildlife Mgmt. 12:25-36. 1948.

Hines, William W., and Smith, Carl W.

An account of the relationship of blacktail deer to the propagation of Douglas fir seedlings. Ore. State Game Comm. Bul. 9(17):3,6,8. Sept. 1962.

The amount of deer damage on conifers is not in direct proportion to animal density.

Kuhn, Lee W.

Mortality studies of Columbian black-tailed deer in the coastal region of Oregon. M.S. thesis, Oregon State College. 1942.

Lightfoot, W.C., and Hines, W.W.

Factors associated with the measurement of animal damage to Douglas fir plantations. Western Assoc. State Game & Fish Comm. Proc. 40th Ann. Conf.: 211-216. 1960(1961).

...blacktail deer densities are much higher in Douglas fir plantations than previously estimated and impact of the deer population upon conifers is not in direct proportion to animal density...

Lindzey, James S.

A study of the Columbian black-tailed deer, *Odocoileus hemionus Columbianus* (Richardson). M.S. thesis, Oregon State College. 1943.

McCullough, Dale R.

An ecological study of the Columbian black-tailed deer in a logged environment. M/S. thesis, Oregon State Univ., 1960.

McCullough, Dale R.

Relationship of weather to migratory movements of black-tailed deer. Ecology 45(2):249-256. Spring 1964.

Both spring and fall migrations,...occurred during ranges of 40 to 60% minimal relative humidity. The migrations could not be attributed to habitat factors such as food, water, or escape cover.

Mace, Robert U.

[illegible]

1. The following information was obtained from the records of the Federal Bureau of Investigation, Bureau of Prisons, and the United States Department of Justice, Office of the Inspector General, regarding the activities of the following individuals:

1. The Commission has received information from the Department of the Interior, Bureau of Land Management, that the Bureau is currently conducting a study of the feasibility of establishing a National System of Public Lands. The Commission is interested in the results of this study and in the Bureau's recommendations regarding the establishment of such a system.

The first part of the book is a review of the development of the Soviet Union. It is followed by a chapter on the Soviet Union's foreign policy. The book is written in a clear and concise style. It is a good read for anyone interested in the Soviet Union.
